Dear Mr. Mustaf:

On behalf of John Philip Sousa Middle School, it is my pleasure to write a letter of support for the Take Charge Leadership/Life-skills Development and Basketball Wellness programs.

I would like to thank you for offering these programs to our scholars. The programs have been outstanding and notably, our students were eager to participate and engaged each week.

These innovative researched base programs, brought realistic scenarios that youth may face; for example when choosing to use drugs and alcohol, such as the scene for being arrested, having parents find drugs in bedrooms and even dying of an overdose. It is vitally important that we equip our youth with the knowledge and the power to make the right choices.

We have noticed improvements in their decision making and attitude towards school. Your programs have challenged our scholars to build character and integrity, and more importantly make better decisions in life. You offered our scholars two quality programs that enhanced our student body and has proven to be an asset to our school, students, and community as well.

In conclusion, I enthusiastically support your programs, and only hope that you can continue to offer these quality programs to our school as well as others.

Best Regards,
